

REGISTERING FOR FALL

TYPES OF COURSES OFFERED

The summer/fall course schedules will include several instructional formats: in-person, live-streaming Desktop Video Conferencing (DVC) via Zoom, online, hybrid classes

Online only classes

There are two course options that do not require students to come to a Columbia State campus. Select Online from the drop down box for Campus in the Advanced Search when looking for classes. It will appear as:

Campus: 

Live-Streaming Desktop Video Conferencing (DVC/Zoom) without an assigned room

Live-streaming classes are engaged live virtual learning. Students must be available to participate in class during the scheduled days and times for lecture and will submit assignments using 'Online Campus' or other software specific to the course. Students will be required to have a camera and microphone to participate. Computer labs will be open on every campus for student use by appointment. On the first day of class, check for an announcement in Online Campus for the Zoom link to attend class.

Here is an example of how this type of course might look in the schedule. Note meeting day and time but no room location.
